Update – unless you wish to I suggest that there is no need for you to review this package. OPPT and I relooked at Q18 and agree that is an OW not OCSPP issue for water contaminants and not TSCA. We also agree that there are no other OCSPP equities to review in this set. A copy is in your folders and I will wait until tomorrow morning before responding to OW with our outcome. Thanks

Hi. This is OMB's passback on our inputs to David Ross's QFRs from the March hearing. These were requested by COB today but I will let OW know we expect to have something in the AM. I accidentally sent OPPT to wrong file so they are now reviewing simultaneously. So I jammed us up. **I think the only one for us the revision to QFR#18 which I think is best resolved in the IO anyway.** Ruth please print for reading folders for A, N and C tonight. Thanks.

Hi Hans. My mistake. I sent you the same file (DOD) in both emails. This is the one with Question 18 edits to review. This is OMB pass back on Dave Ross's SEPW PFAS QFRs, which includes comments from OMB and DOD. Please skim the rest (there's not a lot) but 18 looks to me to be the only one. Thanks. Sorry for the confusion.

A new group of folks have inputted into these and so OW is sending around again so that all the offices get to review to ensure that their equities are not affected. Per my email I see edits to Q 18 which is TSCA and there may be others. Does that help?

Hi Mary,

This is the third time we have been asked to review these QFRs, I'm unclear what is expected of us this time around.

Hi Hans. This is another set. On my quick skim I only see comments on Q18 as OPPT's. Let me know if you see more. If you can get this back by mid-afternoon tomorrow our deadline is COB tomorrow. Thanks.
